TEST SUMMARY REPORT

WEBSITE TESTED: Swag Labs E-Commerce Website

REPORT COVERS:

- Scope
- Objectives
- Test scenarios summary
- Defect summary
- Recommendations

PREPARED BY:

E Alice Innocent

Software Testing Intern

SUBMISSION DATE:

17TH march 2026

INTRODUCTION:

This Test Summary Report documents the testing activities performed on the Swag Labs (saucedemo.com) e-commerce website. The purpose of this report is to provide stakeholders with a comprehensive overview of testing progress, results, defect metrics, and quality assessment of the application.

Application Details:

- Application Name: Swag Labs
- Application URL: https://www.saucedemo.com/
- Application Type: E-commerce Web Application

SCOPE:

In scope:

MODULE	FEATURES TESTED
Login Module	User authentication, Error message validation, Logout functionality, Session management
Product Catalog	Product display, Product images, product descriptions, Add to cart buttons
Product Filters	Sort by Name(A-Z, Z-A), Sort by Price (Low-High, High-Low)
Cart Module	Add items, Remove items, Continue shopping, Cart count Validation
Checkout Module	Personal information form, Order summary, Order completion, Confirmation message
User Types	standard_user, problem_user, locked_out_user, performance_glitch_user

Out scope:

AREA	REASON
Performance testing	Requires specialized tools
Security testing	Beyond current test scope
Mobile testing	Desktop-only testing
API testing	Backend not accessible
Database testing	No database access provided

OBJECTIVES:

OBJECTIVE ID	OBJECTIVE DESCRIPTION	PRIORITY
OBJ_01	Verify that all user types can log in with valid credentials.	High
OBJ_02	Ensure proper error messages display for invalid login attempts.	High
OBJ_03	Validate product images and details display correctly.	Medium
OBJ_04	Test add-to-cart and remove-from-cart functionality.	High
OBJ_05	Verify product sorting filters work correctly.	Medium
OBJ_06	Validate complete checkout process.	High
OBJ_07	Compare behavior between standard_user and problem_user.	Medium
OBJ_08	Identify and document all defects with clear steps.	High

TEST EXECUTION SUMMARY:

TEST SCENARIOS SUMMARY:

TEST CATEGORY	TEST SCENARIOS	PASS	FAIL	BLOCKED	PASS RATE
Positive test cases	10	9	1	0	90%
Negative test cases	5	5	0	0	100%
UI/UX testing	3	1	2	0	33%
Total	18	15	3	0	83.3%

MODULE-WISE TEST DISTRIBUTION:

MODULE	TEST CASES	PASS	FAIL	PASS%
Login module	5	5	0	100%
Product catalog	5	3	2	60%
Cart functionality	4	4	0	100%
Checkout process	4	3	1	75%
Overall	18	15	3	83.3%

USER – WISE TEST RESULTS:

USER TYPE	TEST CASES	PASS	FAIL	OBSERVATIONS
standard_user	6	6	0	All features working correctly
problem_user	6	3	3	Images broken, sorting fails, checkout stuck
locked_out_user	6	3	0	Error message displays correctly
performance_glitch_user	3	3	0	Slow but functional

DEFECT SUMMARY:

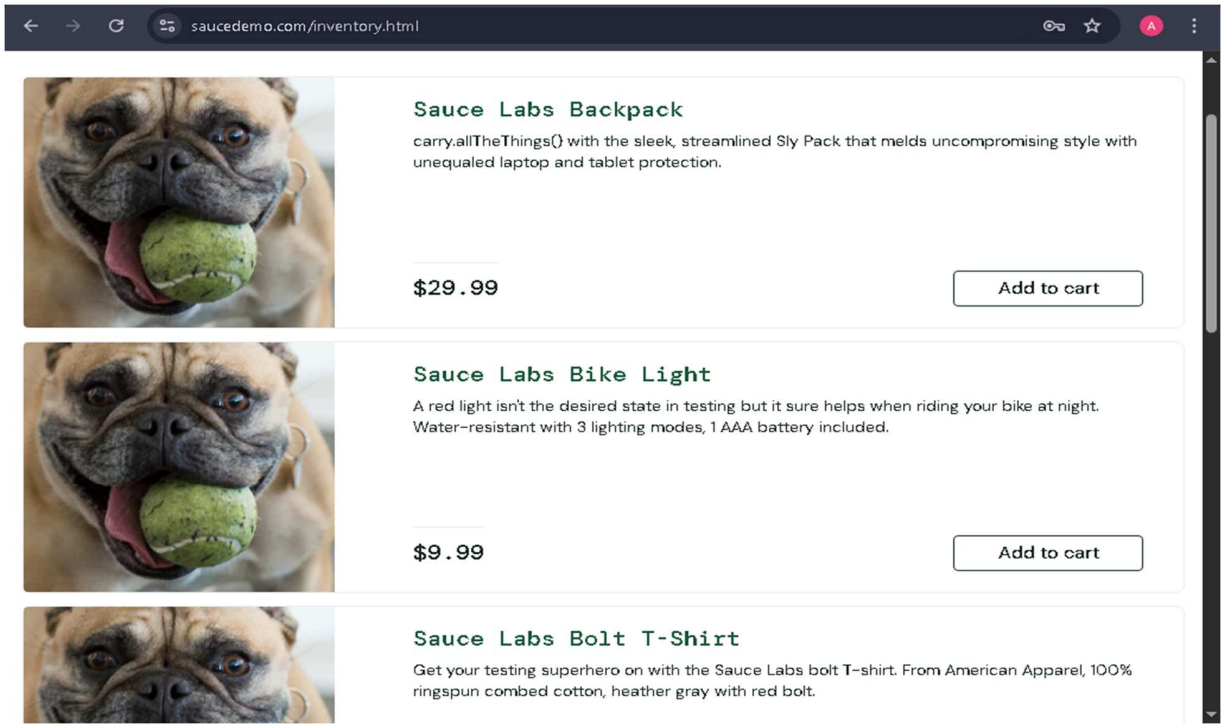
DEFECT METRICS OVERVIEW:

METRIC	VALUE
Total defects found	3
Critical defects	0
High severity defects	1
Medium severity defects	2
Low severity defects	0
Defects fixed	0
Defects open	3
Defect density	16.7%(3 defects/18 tests)

DEFECT DETAILS:

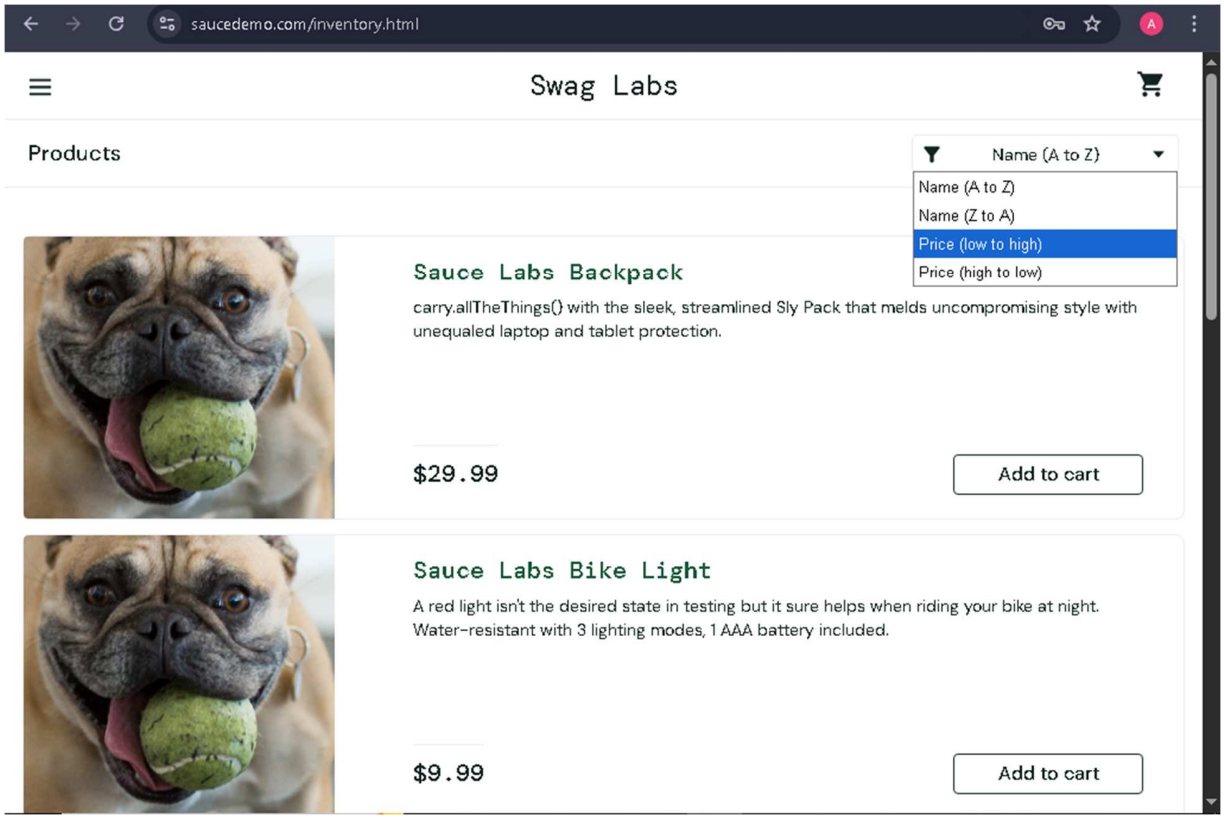
BUG_01 – Broken product images for problem_user

FIELD	DESCRIPTION
Title	Product images fail to load when logged in as problem_user
Module	Product catalog
Severity	Medium
Priority	Medium
Environment	Chrome, Windows 10
Steps to reproduce	1. Navigate to saucedemo.com 2. Login with username: problem_user and password: secret_sauce 3. Observe the product images on the inventory page 4. Notice broken image icons instead of actual product photos
Expected result	All product images should load correctly
Actual result	Broken image icons appear for all products



BUG_02 - Sorting Filter Does Not Work for problem_user

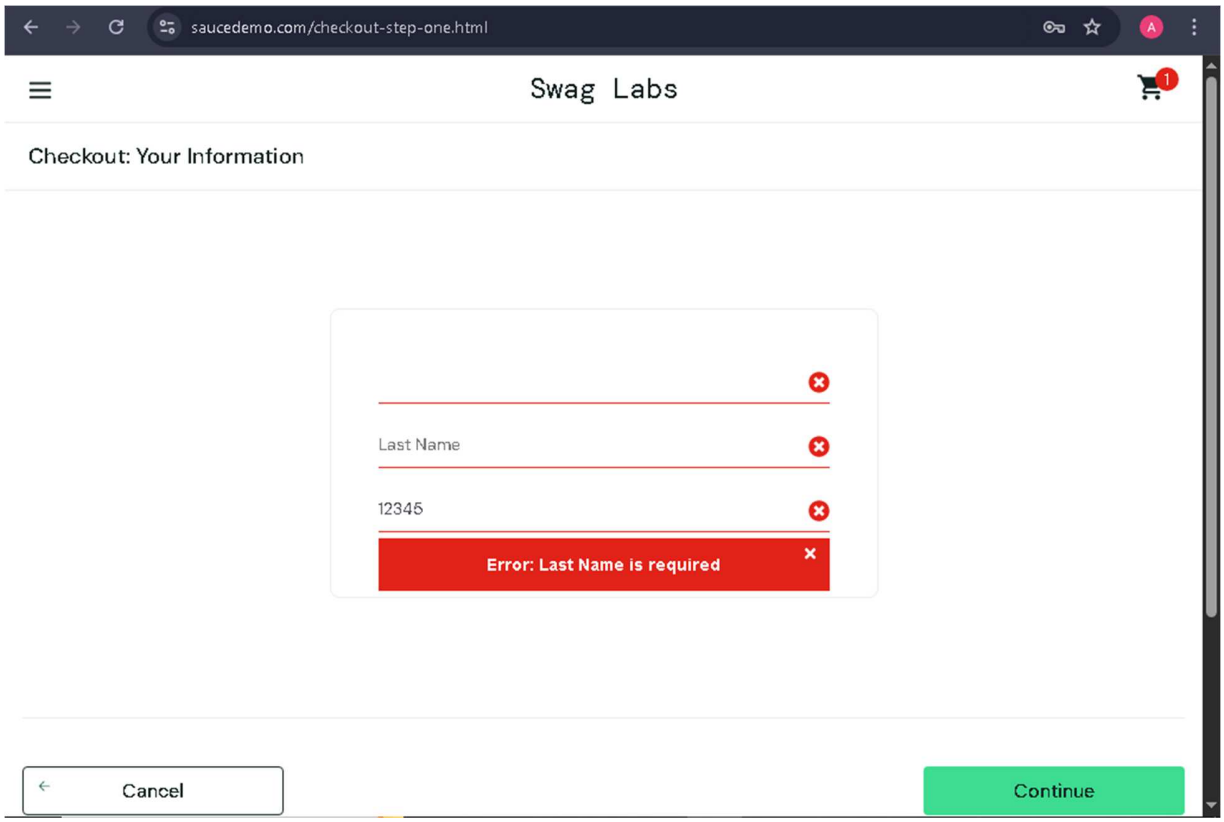
FIELD	DESCRIPTION
Title	Product sorting filter fails to reorder items for problem_user
Module	Product catalog
Severity	Medium
Priority	Low
Environment	Chrome v120, Windows 10
Step to reproduce	1. Login as problem_user 2. Click on the sorting dropdown (top right) 3. Select "Price (low to high)" 4. Observe the product order
Expected result	Products should reorder from lowest to highest price
Actual result	Product order remains unchanged regardless of filter selected



BUG_03 - Checkout Information Page Shows "Last Name is Required" Error Even After Filling All Fields (problem_user)

FIELD	DESCRIPTION
Title	Checkout form shows "Last Name is required" error even when all fields are filled for problem_user
Module	Checkout Process
Severity	High
Priority	High
Environment	Chrome v120, Windows 10
Step to reproduce	1. Login as problem_user (username: problem_user, password: secret_sauce) 2. Add any product to cart (e.g., Sauce Labs Backpack) 3. Click on shopping cart icon 4. Click "Checkout" button 5. Enter First Name: "John" 6. Enter Last Name: "Doe" 7. Enter Zip/Postal Code: "12345" 8. Click "Continue" button

Expected result	User should proceed to the Checkout Overview page to review order before finalizing purchase
Actual result	Page does not proceed. An error message appears saying: "Error: Last Name is required" despite the Last Name field being filled. User cannot proceed to next step.



RECOMMENDATIONS:

Based on the test findings, the following recommendations are proposed:

S.NO	RECOMMENDATION	TARGET MODULE
1	Fix checkout blocking issue immediately - BUG-03 prevents users from completing purchases, directly impacting revenue	Checkout
2	Correct image paths - BUG-01 affects user experience and professional appearance	Product catalog
3	Investigate sorting logic - BUG-02 needs JavaScript review	Product catalog

4	Perform regression testing after fixes are implemented	All modules
5	Test with all user types after fixes to ensure consistency	All modules
6	Add proper error messages for users when actions fail	All modules
7	Consider adding automated tests for critical paths like checkout	Checkout

CONCLUSION:

Summary of Findings

- Total Tests Executed: 18
- Pass Rate: 83.3% (15/18 tests passed)
- Defects Found: 3 (1 High, 2 Medium)
- User Experience: standard_user works perfectly; problem_user has significant issues

Quality assessment:

ASPECT	RATING(1 - 5)	COMMENTS
Functionality	4	Works well for normal users
Usability	3	Good, but broken images affect experience
Stability	5	No crashes or freezes
Defect severity	3	High-severity defect present
Overall quality	3	Needs improvement for problem_user

Final Verdict: The application is NOT READY FOR RELEASE until BUG-03 (checkout blocker) is fixed. Once fixed, regression testing is recommended before release.
